WHO WE ARE

India's Most Innovative Wellness Brand

Truyerba is built on one belief: that Indians deserve better energy. We took an ancient South American superfood — Yerba Mate — and reimaged it for the modern, health-conscious Indian consumer.

196+

Active Compounds

Why Yerba Mate?

Yerba Mate is the world's most nutritionally complete caffeinated plant. With 196+ active compounds, it delivers clean, sustained energy with zero crash — something coffee and green tea simply can't match.

Science First

Every Truyerba product is built on peer-reviewed research. We don't just claim benefits — we formulate to deliver measurable, real-world results backed by nutritional science and third-party lab testing.

Sustainability Commitment

We source from traditional agroforestry farms in South America where Yerba Mate grows under natural forest canopies. Our 2026 target: 100% plastic-free packaging across all product lines.

No Shortcuts. Ever.

Zero artificial colors. Zero artificial flavors. Zero artificial sweeteners. Zero compromise. Every ingredient is intentional, every dose is precise, and every batch is third-party lab tested for purity and safety.

 EXPANDING THE RANGE

What's Coming Next

We're constantly innovating. Here's a sneak peek at the next two products being developed in our lab right now.

**PRODUCT 04 · IN DEVELOPMENT**

Yerba Mate Energy Drink

A full-format energy drink powered by Yerba Mate — not synthetic caffeine. Clean energy in a can, without the crash, the artificial colours, or the sky-high sugar content of conventional energy drinks.

Natural Caffeine

No Crash

Zero Artificial

**PRODUCT 05 · IN DEVELOPMENT**

Yerba Mate Tea Bags

The ritual of tea, powered by Yerba Mate. Premium loose-leaf Yerba Mate in a convenient tea bag format — for those who prefer to steep their energy the traditional way. Just brew, steep 3 minutes, enjoy.

Premium Leaves

Brew & Enjoy

100% Natural

THE TRUYERBA DIFFERENCE

No Shortcuts. No Compromises.

Every product we make is designed to deliver real, measurable results — without artificial fillers, synthetic stimulants, or hidden ingredients.

Clean Energy. Zero Crash.

Our products deliver 4–6 hours of smooth, sustained energy through the natural caffeine + theobromine synergy found in Yerba Mate — not synthetic stimulants that spike and crash.

Third-Party Lab Tested

Every batch is independently tested for purity, potency, and safety. You know exactly what you're consuming — and you can trust that it is what we say it is.

196+ Active Compounds

Yerba Mate contains more active compounds than coffee and green tea combined — including B-vitamins, minerals, 15 amino acids, saponins, and powerful polyphenol antioxidants.

Sustainability First

Sourced from agroforestry farms that support biodiversity. Targeting 100% plastic-free packaging by 2026. Fair wages for farmers. Carbon-conscious operations throughout our supply chain.
