

DAFUEL

INNOVATION PVT LTD

What is DAFUEL?

DAFuel is a next-generation performance nutrition brand on a mission to revolutionize energy supplementation through clean, plant-based innovation.

Our flagship product—DAFuel Energy Gummies—delivers fast-acting, natural caffeine extracted from yerba mate, offering a convenient and healthier alternative to traditional stimulants like coffee and synthetic energy drinks. Designed for athletes, professionals, and high-performers, our products are rooted in cutting-edge food science, sustainability, and modern lifestyle needs. With a focus on taste, efficacy, and clean-label ingredients, DAFuel aims to lead the future of functional nutrition—where energy is portable, plant-powered, and purpose-driven. We're not just fueling performance; we're reimagining how the world energizes.

Our Mission and Vision

DAFUEL

VISION

Our Vision

To become the global leader in plant-powered performance nutrition, transforming the way the world energizes by replacing synthetic stimulants with sustainable, science-backed alternatives that fuel both body and mind.

MISSION

Our Mission

To empower high-performance individuals with clean, plant-based nutrition solutions that deliver sustained energy, enhance focus, and support modern lifestyles—through scientifically formulated, convenient, and great-tasting products.

Problems Statement

DAFUEL

Five sharp, business-specific problems for DAFUEL, based on deep research, industry data, and the platform's functional positioning

01

Unhealthy Caffeine Consumption

Most people rely on sugar-laden energy drinks or acidic coffee, leading to crashes, jitters, and long-term health side effects.

02

Lack of Convenient Energy Options

There's no on-the-go, clean-label caffeine alternative that's portable, fast-acting, and suitable for athletes or professionals on tight schedules.

03

Overdependence on Synthetic Stimulants

Mainstream energy products often contain artificial additives, preservatives, and synthetic caffeine, harming human performance and long-term wellness goals.

04

One-Size-Fits-All Energy Solutions

Current energy products don't account for personalized needs or lifestyle differences, lacking tailored nutrition and tech-enabled performance tracking.

05

Limited Innovation in Functional Nutrition

The functional food sector hasn't innovated enough in clean, plant-based delivery formats that align with evolving health and sustainability trends.

Solutions by DAFuel

DAFUEL

Healthy, Clean Caffeine Alternative

DAFuel uses naturally extracted caffeine from yerba mate, offering smooth, crash-free energy without sugar, acidity, or harmful additives.

Convenient, Portable Energy Gummies

Our on-the-go gummies are lightweight, easy to consume anytime, anywhere—ideal for athletes, professionals, and frequent travelers.

100% Plant-Based & Clean-Label

DAFuel avoids synthetic caffeine and preservatives, delivering energy through organic, non-GMO ingredients that support long-term health.

Personalized via Tech Integration

Our upcoming app will offer energy tracking, usage patterns, and personalized recommendations based on activity levels and lifestyle needs.

Innovation in Nutrition Delivery

By combining food science, sustainability, and modern formats, DAFuel is pioneering a new category in plant-based performance supplementation.

Market Size

Based on growth in India's nutraceuticals and energy food segment
(FICCI, IBEF, Statista)

Based on startup ramp-up pace, funding, execution capacity

India vs. World – Per Capita Spend on Functional Energy Nutrition (2026)

DAFUEL

Plant-Based Energy Product Penetration

■ India (5%) ■ Global avg (12%) ■ USA (25%)

Population (2026 est.) | Source: UN Projections

India vs. World Opportunity – Per Capita Spend on Functional Energy Nutrition (2026)

Metric	India	Global Average	USA	Remarks
Population (2026 est.)	1.43 Billion	~8 Billion	~340 Million	Source: UN Projections
Functional Energy Market Size (2026)	Rs.30,000 Cr (~\$3.6B)	~\$120 Billion	~\$35 Billion	Source: Statista, Grand View Research
Per Capita Market Size	Rs.210 (~\$2.50)	\$15	\$100+	India lagging significantly in per capita spend
Plant-Based Energy Product Penetration	<5%	~12%	>25%	High white space in India for clean-label innovation
Caffeine Consumption (mg/day)	~90-120 mg	~160-180 mg	~250 mg	India still under-consuming caffeine in functional formats

DAFuel – Revenue Model

Direct-to-Consumer (D2C)

Website & app sales with subscriptions, bundles, and limited editions.

E-Commerce Marketplaces

Sales via Amazon, Flipkart, HealthKart, and niche wellness platforms.

Retail & Fitness Partnerships

Placement in gyms, nutrition shops, FMCG stores, and fitness chains.

Institutional & B2B Sales

Bulk supply to corporates, defense, colleges, and sports academies.

International Exports

Expansion to US, UAE, Southeast Asia via distribution partners.

Licensing & Co-Branding

Licensing formulations to brands; co-branded launches with apps & cafes.

Mobile App Monetization

Freemium app with energy tracking, personalized nutrition & loyalty features.

Why Now? - Perfect time for Dafuel

DAFUEL

Rs.65,000 Cr Market

India nutraceuticals market Rs.65,000 Cr by 2026, 21% CAGR. Growing demand creates huge market for innovative functional nutrition products.

72% millennials prefer no artificial additives (Nielsen 2023)

Plant-based Yerba Mate extraction perfectly fits evolving clean-label consumer expectations.

Messi, Ronaldo driving Yerba Mate global popularity (Forbes, ESPN)

Global icons create aspirational pull for younger, health-conscious consumers.

76% professionals seek clean energy without crashes (LinkedIn)

High demand for portable, crash-free, clean energy gummies grows rapidly.

US market
~\$150B
FDA-compliant

DAFuel – Value Proposition (Simplified)

DAFUEL

Ultra-Convenient Format

Compact, tasty gummies ensure fast absorption and easy on-the-go energy.

Science Meets Taste

Formulated for both nutritional efficacy and great taste compliance.

Clean, Plant-Based Energy

Yerba Mate gummies deliver natural caffeine without crashes, acidity, or artificial ingredients.

Built for Modern Lifestyles

Aligns with wellness, sustainability, and Gen Z's clean, ethical consumption trends.

Performance-Focused

Supports sustained energy, focus, and endurance for athletes, professionals, and active lifestyles.

DAFuel – Growth Drivers (Simplified)

Clean Energy Demand

Rising health awareness drives demand for clean, natural caffeine sources.

Digital-First Audience

Mobile-savvy consumers prefer online health purchases, enabling scalable digital growth.

On-the-Go Nutrition

Busy lifestyles create demand for portable, convenient energy formats like gummies.

Functional Food Boom

Functional nutrition growth opens new segments for product innovation.

Tech-Driven Personalization

Apps and loyalty platforms enable stronger engagement and long-term retention.

DAFuel – Go-To-Market (GTM) Strategy (MVP Stage)

DAFUEL

Target Audience

Health-conscious Gen Z & Millennials in Tier-1 cities—fitness enthusiasts, corporate professionals, and college students seeking clean energy alternatives.

Sampling & Feedback

Partner with 20-30 gyms, yoga studios, and co-working spaces for free samples + QR code feedback loop. Offer 10% off next purchase for responses.

Acquisition Strategy

Run influencer-led UGC campaigns + performance ads (Instagram Reels, YouTube Shorts). Target early adopters via interest-based targeting.

Distribution Channel

Start D2C via brand website and Instagram Shop. Use Shopify for backend, Razorpay/Instamojo for payments, Shiprocket for logistics.

Metrics to Track

CAC, Repeat Rate, Feedback Score, Organic Follower Growth, WhatsApp Group Engagement, UGC Volume, D2C Revenue Per Visitor.

Product Offering

Launch with one hero SKU: Yerba Mate Caffeine Gummies (single flavor, trial pack + 7-day pack) to simplify messaging and operations.

Community Building

Launch a WhatsApp or Discord group for first 500 users—offer exclusive early access, feedback forms, and brand storytelling to build superfans.

Content Strategy

Focus on high-frequency reels, before-after energy tests, reviews by micro-influencers, and meme-style content. Use clean, modern visual branding.

Retention Tools

Offer a 7-day energy challenge pack. Use email + WhatsApp drip campaigns with education (why Yerba Mate), benefits, and timed refill reminders.

DAFuel Competitor Analysis (India + Global)

DAFUEL

Competitor	Product Format	Caffeine Source	Clean Label	Yerba Mate	Market Focus	DAFuel Advantage
DAFUEL	Gummies	Yerba Mate	Yes	Yes	India + US	Only Yerba Mate gummy globally; US certifications in place
Wake Up Gummies	Gummies	Synthetic	Partial	No	India D2C	Synthetic base, limited clean-label push
Fast&Up	Effervescent Tabs	Synthetic + Natural	Partial	No	India fitness	Competing formats, not plant-based caffeine focused
HUSTLE	Energy Drinks	Synthetic	No	No	India Tier-1 youth	Sugary drinks, no clean plant-based innovation
SToK	RTD Coffee	Coffee Beans	Yes	No	US premium	Different format, not direct substitute
Guayaki	RTD Yerba Mate	Yerba Mate	Yes	Yes	US, South America	Drinks category; no gummies format
HVMN	Nootropic Supps	Synthetic + Adapt.	Yes	No	US biohacking	Premium cognitive segment, not mainstream energy
5-hour ENERGY	Liquid Shots	Synthetic	No	No	Mass-market	Chemically formulated; lacks clean-label appeal
Goli	Gummies	ACV & Adaptogens	Yes	No	Global wellness D2C	Wellness leader, not focused on energy/caffeine
