PROFESSIONAL SUMMARY

6 years of experience in escalation management, project delivery, and global vendor/client management. Skilled in cross-functional coordination, stakeholder engagement, and SaaS client onboarding. Delivered complex IT migrations for Telstra Australia and managed 5+ enterprise client accounts at Sakon. Open to relocation.

WORK EXPERIENCE

Project Manager – IT Landscape | Mercedes-Benz India

Jul 2025 – Present

- Led cross-functional SAP ERP implementation coordinating between business stakeholders in India and a development team in South Africa, maintaining delivery timelines across time zones.
- Conducted gap analysis across 5+ functional modules; designed custom SAP solutions that reduced process deficiencies and improved system efficiency by approximately 25%.
- Provided executive-level project status updates directly to the Plant Head and Product Owner, accelerating milestone sign-offs and aligning delivery with business objectives.
- Facilitated User Acceptance Testing (UAT) and Go-Live documentation for manufacturing plant operations, achieving zero critical defects at launch.
- Created proof-of-concept designs and flow diagrams for 5+ modules, translating complex requirements into clear development briefs for a remote cross-functional team.

Senior Analyst – Vendor Management | Sakon

May 2024 – May 2025

- Owned escalation management for global client and vendor issues across 3+ regions, resolving escalated accounts within agreed SLAs through structured communication and issue tracking.
- Managed end-to-end onboarding of more than 5 concurrent enterprise clients onto Sakon's Device Platform, coordinating Jira and COP tickets to track progress.
- Built SOPs for 10+ new clients, reducing onboarding ambiguity and improving process consistency by approximately 20%.
- Analyzed large vendor datasets to proactively identify trends and risks, enabling pre-emptive escalation mitigation before issues impacted clients.
- Mentored 3+ new team members, cutting ramp-up time by approximately 30% through structured training and process documentation.

System Engineer – Project Management | Infosys Limited

Nov 2019 – May 2024

- Managed IT infrastructure migration projects for Telstra Australia (Voice Services: TIPT, SIP ISDN, PSTN) — acknowledged by the client for on-time delivery as a key financial KPI.
- Drove end-to-end escalation lifecycle including root cause investigation, cross-functional resolution, and process improvement recommendations, reducing recurring escalations by approximately 30%.
- Presented project status reports and business cases to steering committees across 5+ concurrent projects, ensuring transparency on budget, risks, and mitigation plans.
- Successfully onboarded a 5-wave enterprise client to the SDP platform — recognised internally as a complex, high-visibility delivery achievement.
- Awarded Rising Star (Jul 2022) and Voice of the Team (2023) for consistent delivery excellence and cross-functional stakeholder engagement.
